Summary

Experienced Front-end Developer with 6+ years of experience in developing and implementing user-centric web solutions.

Proven experience in delivering high-quality web projects using Agile practices in working remotely for more than 4 years.

Skilled in project management, with experience leading small teams and ensuring timely delivery of projects.

Detail-oriented and able to learn and adapt quickly to new technologies. Holds a BSc in Information Systems from PUC Minas and currently working as a UI Developer at Symplicity, where I have been able to apply my skills and knowledge to deliver successful projects for clients. Strong expertise in React.js, Next.js, Angular, Aurelia, and SASS, as well as experience with Node.js, Django, MongoDB, and GraphQL for back-end development.
